Canada.
(Online presentation)**

Dr. Henri Pallard is the Director, International Center for Interdisciplinary Research in Law (ICIRL), and Professor, Department of Law and Justice, Laurentian University, Sudbury (Ontario), Canada. He is broadly interested in the relationship between culture and human rights as it manifests itself in both western and non western cultures. Dr. Pallard is particularly interested in the challenges faced by the Arab world in its efforts to reconcile politics and religion. From 1994 to 2004, he was the Director of *Persons, Culture and Rights (Personne, culture et droits)*, an international North/South research team which was funded by the International Francophone University (*Agence universitaire de la Francophonie*). During this period, they worked closely with researchers and academics from Morocco, Tunisia and Egypt distilling the cultural issues underlying the interpretation and implementation of human rights, the rule of law and democracy in North Africa.

He is currently the Associate Director, *Poverty, Homelessness and Migration*, at Laurentian University, a \$1 million project funded by the Social Sciences and Humanities Research Council of Canada (SSHRC). Working in partnership with First Nations and northern communities, this five-year project examines the underlying causes of poverty, poor housing, homelessness, and out-migration in northern Ontario to gain knowledge on these issues, understand their impact on northern Ontario, and give communities the tools they need to ensure that the most basic human needs of their citizens are met.

In 2008, Dr. Henri Pallard was awarded the Laurentian University Research Excellence Award in recognition of his work internationally which contributed significantly to the reputation and prestige of the university. In 2010 he was the recipient of the 2010 Saint-Jean Award of Merit for Distinguished Alumni. This award is the most prestigious honour that the Saint-Jean Campus, University of Alberta, bestows upon one alumnus each year in recognition for demonstrating leadership in her/his profession. In 1992, he was awarded a research fellowship from the International Francophone University and spent a year at the Centre de philosophie du droit, Université Paris II.
